ABOUT ME

A to-be Software Engineering graduate. Eager to apply designing skills in UI designing of websites and applications to build interactive and user-friendly user interfaces.

TECHNICAL SKILLS

Tools: *Figma*, Miro, Draw.io
Languages: HTML, CSS, Java, Python, JavaScript, TypeScript
Frameworks: Bootstrap, ReactJs

EDUCATION

January 2020 - June 2024 **BSc. in Software Engineering**
Islamic University of Technology

EXPERIENCE

June 2023 - September 2023 **Software Engineering Intern - Kaz Software**

- Designed, developed, and tested projects for both in-house and client environments
- Contributed to two significant projects, each showcasing different aspects of my skills and expertise
 - A supply chain management project
 - An Apple watch health tracker application
- Collaborating with own team and across teams to propose and share innovative ideas

Figma, Bootstrap, HTML, CSS, Angular, Typescript, Git, Postman

PROJECTS

Figma, Android Studio, SQLite **Periodoc** dribbble.com/shots/20637259-Periodoc-period-tracker-app
A menstrual cycle tracker application

- Developed detailed use cases to understand the specific needs and behaviors of target users
- Designed Information Architecture to Ensure easy navigation through the interface
- Created low-fidelity visual representations of the user interface
- Outlined the layout, structure, and functionality of the interface as a blueprint for the final design
- Completed the User Interface Design while ensuring an intuitive and user-friendly interface
- Built the application using Android studio

Figma, Javascript, Bootstrap **CheckMate** dribbble.com/shots/21044814-To-do-list-app-Calendar-page
A to-do list application to keep track of tasks

- Led the planning and development of the user interface to ensure an intuitive and engaging user experience
- Implemented progress tracking functionality to enable users to monitor their task completion and pending status as well as their overall productivity
- Designed visual indicators to display task progress and completion rates effectively
- Built and integrated a calendar feature to help users schedule and organize tasks by date
- Implemented functionality to allow users to customize the application's appearance through different themes

ReactJS, CSS, Javascript, Typescript, JSON **Slide It!** github.com/frhoyde/Slidelt
A presentation maker application

- Created multiple template designs to offer users a variety of layout options for their slides
- Implemented functionality to allow users to easily insert images, gifs and videos into their slides and pending status as well as their overall productivity
- Developed a feature enabling users to choose from different types of fonts and adjust font sizes for text content
- Implemented saved formats for changing the page layout to enhance the overall outlook of the slides

CERTIFICATIONS

"Foundation of User Experience Design" by Google, 2023
"Start the UX Design Process: Empathize, Define, and Ideate" by Google, 2023

LANGUAGES

Bengali - native English - fluent

EXTRA CURRICULAR ACTIVITIES

Vice President of IUT Arts and Literature Society. Actively taken part in logo generation of the Society.
